Career objective:

Dedicated and enthusiastic Computer Science and Engineering student specializing in Artificial Intelligence and Machine Learning, with a strong foundation in Python programming and problem-solving. Passionate about applying technology to solve real-world challenges and eager to gain hands-on industry experience through an internship. Seeking an opportunity to contribute to meaningful projects while further developing technical and professional skills.

Education:

BE in CSE(AIML) | V.S.B. Engineering college | 2024-2028 | CGPA:8.81

Skills:

- **Programming Languages:** Python, Java, C
- **Machine Learning:** Random Forest, XGBoost, Data Preprocessing, Feature Engineering, Model Evaluation
- **Libraries & Frameworks:** Pandas, NumPy, Scikit-learn
- **Database:** PostgreSQL
- **Tools & IDEs:** Jupyter Notebook, VS Code, IntelliJ IDEA, IDLE
- **Soft Skills:** Problem Solving, Teamwork, Communication, Time Management, Quick Learning

Internship:

AI Intern – Infosys Springboard

Duration: (2 months - November 24, 2025 to January 30, 2026)

- Developed an AI-powered sustainable packaging recommendation system
- Built a full-stack web application using Flask and Python integrated with ML models
- Applied machine learning techniques to analyze cost and environmental impact
- Deployed the application with a live link for real-world usage
- Live Project: <https://ecopackai-sustainable-packaging.onrender.com>

Projects:

- **To-Do App:** Developed a GUI-based task manager using Python and Tkinter with task creation, updating, and deletion functionality.
- **Number Guessing Game:** Developed an interactive Number Guessing Game using Python and Tkinter with real-time feedback.
- **Sustainable Packaging Recommendation System:** Created an AI-based system to recommend sustainable packaging solutions using Machine Learning.

Certification:

- **C programming course** (Infosys Springboard . 2024)
- **Python - TechA Foundation and developer certification** (Infosys Springboard . 2025)
- **NPTEL – Data Structures and Algorithms using Python(2025), Data analytics with python(2026)**
- Certified in **Pragati – Path to Future (Cohort 6)**, a structured program emphasizing career development and future-ready skills.
